Capital PKAL Regional Network Meeting

***Diverse Tools for Diverse Students: Interdisciplinary STEM
Education to Increase Accessibility, Inclusion, and Success.***

Friday, March 20, 2020

University of Maryland, Baltimore County

Mark your calendars for the annual 2020 Capital PKAL Regional Network Meeting, to be hosted at the University of Maryland, Baltimore County on **March 20th, 2020**. STEM educators, professionals, and other stake-holders will gather to discuss ideas on the theme **Diverse Tools for Diverse Students: Interdisciplinary STEM Education to Increase Accessibility, Inclusion, and Success**. The all-day event will include a combination of oral presentations, workshops, panel discussions, and poster sessions to highlight the following themes:

1. Integrating STEM disciplines to promote outcomes for diverse student populations.
2. Infusion of art and humanities into STEAM curricula.
3. Co-curricular interventions to foster inclusion and promote student success in STEM.
4. Best practices for accessibility in STEM education.

There will also be a dedicated listening session for non-tenure track faculty that will be facilitated by PKAL Executive Officer. Up to 32 non-tenure track faculty can have their registration waived for the conference on a first-come, first-served basis as long as they attend this session.

The Keynote speaker for this event will be Dr. Viknesh Sivanathan, Program Officer at Howard Hughes Medical Institute's Science Education Alliance. Dr. Sivanathan will discuss incorporating research experiences directly in classroom settings.
