

Hist 384: Viewing History through Maps

East Asia in Native and European Cartography

- How does a map inform—and lie?
- How did early modern **Europeans, Chinese, Japanese, and Korean** draw “Asia”?
 - Maps have histories, and we learn history through maps.

We will read, study, and touch (literally!) antique maps made in the 1800s, 1700s, and 1600s!
