International Travel Policy

Policy

V. UNIVERSITY POLICY

In addition to all other required academic and administrative approvals, all University Travelers participating in university-sponsored international travel must adhere to the following:

A. International Travel Registry:

All University Travelers, whether participating in individual or group travel, must register their travel plans in the UMBC International Travel Registry. This will ensure the travelers are enrolled in UMBC's international travel insurance policy and assist University officials to locate and communicate with impacted University Travelers in the event of an emergency or crisis.

Approval Process

- 1. Int'l Travel Registry
- 2. Travel Pre-Approval System
- 3. CISI Int'l Insurance

Risk Assessment

Travel to High Risk Locations

The University will evaluate the known risks of international travel based on levels established by the Centers for Disease Control and Prevention (CDC) and the U.S. Department of State. These Include:

- CDC COVID-19 Notices
- CDC Travel Health Notices
- U.S. Department of State Travel Advisories

Requests to travel through or to international destinations subject to an elevated risk level will require additional screening by UMBC's International Travel Review Committee. If the request is approved, then the traveler will receive location-specific guidance for mitigating risks.

Risk Assessment

Approvers will consider the highest risk level of the three sources referenced in the table below.
