

What is Effort Reporting?

The federal government requires an effort report when an individual is compensated by or has agreed to contribute time to a federally sponsored project.

UMBC requires all faculty members who serve as Principal Investigators on sponsored agreements to be personally responsible to certify the amount of effort that they and their employees spent on sponsored activities.

Effort is defined as the amount of time spent on a particular activity. It includes the time spent working on a sponsored project in which salary is directly charged. Individual effort is expressed as a percentage of the total amount of time spent on work-related activities (instruction, research, administration, etc.) for which the University compensates an individual. Effort reporting is the mandated method of certifying to the granting agencies that the effort charged to each award has actually been completed.

Who is required to complete Effort Reports and When are they Due?

Government regulations set by the Office of Management and Budget (OMB) in 2 CFR 200.430. For all professorial and professional staff, the reports will be prepared each academic term, but not less frequently than every six months. For other employees, unless alternate arrangements are agreed to, the reports will be prepared no less frequently than monthly and will coincide with one or more pay periods.

Effort Reports are due based on the following:

- ***March 31: Fall–Pay Periods 1-14***
- ***September 30: Spring – Pay Periods 15 - 26***

Where to Start?

Preparing for Effort Certification begins at the time of the award.

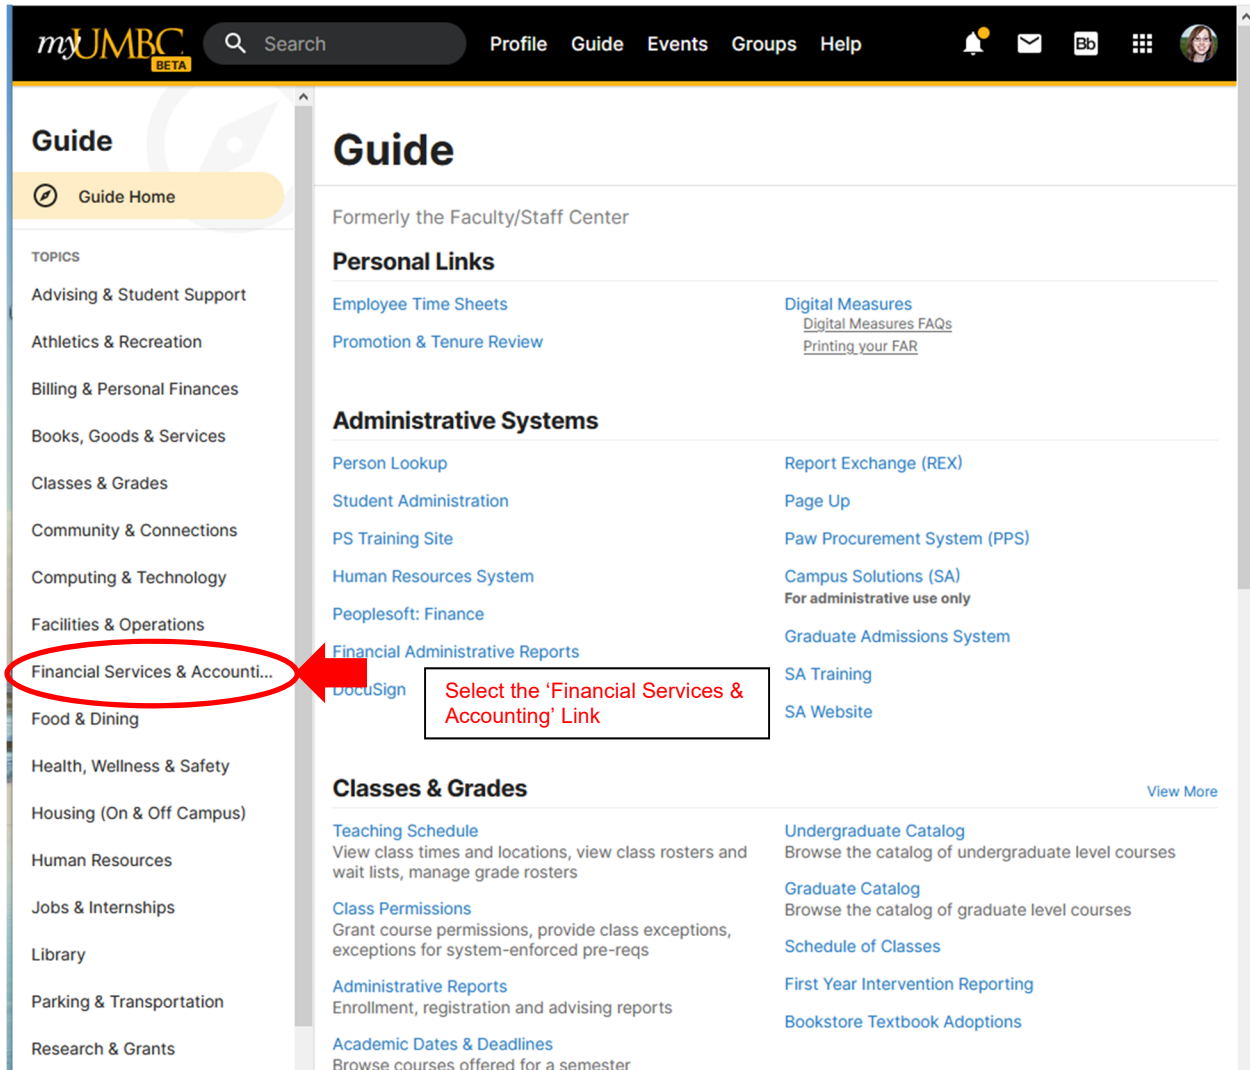

- [Dept. Budget Earnings \(DBEs\)](#) should be processed with the correct distribution at the beginning of the award.
- Monitoring throughout the certification period
- Communicating with Principal Investigator (PI)
