

INSTITUTE OF MARINE AND ENVIRONMENTAL TECHNOLOGY

UNDERGRADUATE SUMMER INTERNSHIP

IMET and UMCES are committed to creating opportunities for undergraduates from underrepresented backgrounds to enable and encourage them to pursue higher degrees and careers in marine and environmental science.

To promote this we are offering paid summer undergraduate internships that include a nine-week research project in **microbial, aquaculture, bioinformatic and marine sciences.**

■ When: June 10 - August 9, 2024

- Full Time
- Monday - Friday

■ Internship Eligibility

- US citizen or permanent resident
- Undergraduate student in field related to biological sciences
- GPA of 3.0 or above

■ In person lab experience

- Includes seminars, workshops, and professional development opportunities

■ Application Due:

February 9, 2024
