

# GENERAL DYNAMICS

## Information Technology

# EVENING WITH GENERAL DYNAMICS INFORMATION TECHNOLOGY

General Dynamics Information Technology is hosting a Professional and Technical Development Session on campus at UMBC. Come out and meet our technical experts, leadership and hiring staff to learn more about our business, customers, industry and career path within our organization. This is an excellent opportunity to ask questions and learn from our insight to benefit your post graduate career search.

General Dynamics Information Technology is an industry leader in providing a wide variety of information management solutions and services to public and commercial health care organizations, military and federal government agencies.

Whether providing data and analysis solutions driving healthcare value and quality or the information technology and networking infrastructure connecting companies and agencies to the public they serve, the company leverages a broad portfolio of capabilities to create the right solution for the mission. We help our clients meet critical objectives through: systems integration, IT services, data infrastructure, systems engineering, software development, human capital management, business process outsourcing services, simulation and training, and consulting.

For questions and additional information, please contact Heather Kreider at (703) 852-2852 or via email at [heather.kreider@gdit.com](mailto:heather.kreider@gdit.com).
