

# SEEKING YOUNG EXPLORERS FOR OCEAN EXPLORATION PILOT PROGRAM

JOIN OCEANX ON AN UNFORGETTABLE 11-14 DAY VOYAGE ABOARD THE OCEANXPLOER. EXPERIENCE ROUGH SEAS, OPEN WATER, SCIENCE, MEDIA, OPERATIONS AND CAMARADERIE AS WE UNDERTAKE OUR MISSION TO EDUCATE, PROTECT AND INSPIRE THE WORLD.

The oceans have inspired awe and intrigue since the beginning of time, with heroic tales of exploration passed down through countless generations. Now, we are **offering a unique ocean educational adventure: the chance for twelve young explorers to travel to Gibraltar on January 5<sup>th</sup> and join OceanX's research and exploration vessel, *OceanXplorer*, on its voyage to Malta.**

**For a chance to join the expedition**, budding university-aged explorers are invited to answer the following prompt: **Describe your dream scientific ocean exploration and storytelling project. How would you use *OceanXplorer's* state-of-the-art facilities and resources in your mission? Get creative and show us your exploration chops. Submissions must be received by 11:59 PM EST November 18, 2021.**

We are **looking for individuals of all backgrounds and disciplines** (physical and biological sciences, engineering, filmmaking, technology, communications, etc.), who are interested in pursuing a career focused on the ocean. Selected candidates will have full financial support for travel, lodging and meals.

Explorers will participate in an **eleven- to fourteen-night expedition aboard *OceanXplorer***, OceanX's one-of-a-kind, world-class, 87-meter research and exploration vessel. Explorers will hear **amazing tales of past missions, learn from our expert team of scientists, storytellers and crew members, execute important scientific, media and operations projects in furtherance of our social welfare mission, and gain firsthand experience in ocean exploration.**

**OceanX is a team of scientists, explorers and filmmakers driven to discover what lies beneath. Our mission is to combine science, media and technology to discover and document the untold stories of the ocean, share them with the world and let the wonders of our most precious ecosystem inspire a planet to act.**
