

Faculty Panel: Conducting Research in a Foreign Environment: Stories and Secrets from International Researchers

UC 115D (CASTLE room, University Center, 1st floor)

November 16, 2022 (Wednesday)

12 PM - 12:50 PM

Please join faculty members from the College of Natural and Mathematical Sciences to hear about their life experiences conducting research in a foreign environment. Faculty will give a brief introduction about their own journeys and provide tips on how to conduct research in a new country and how to enjoy and succeed in this adventure. Students will have the opportunity to ask follow-up questions.

DR. MARCIN PTASZEK

Department of Chemistry and
Biochemistry

DR. YEHEW G. KIFLE
