

CNMS GradFest

(Graduate Research Festival)

EXCITING NEWS

The College of Natural and Mathematical Sciences (CNMS) proudly presents the second edition of Gradfest

Lightning Round Talk

Lightning talks are short speeches that differ from traditional conference presentations. Each speaker gets five minutes and must use a limited number of PowerPoint slides (1-5 slides). The main goal is to spark new conversations and collaborations across disciplines with fast-paced presentations.

Poster Presentation

Our goal is to offer a welcoming environment where you can display your research project and engage with fellow students. If your project is still in the early stages of the research process, you are welcome to present your research proposal, current plans, or any initial findings.

Gourmet Bites Awaiting

Not presenting? No problem—swing by the GradFest to enjoy a delicious selection of light refreshments and relaxed scientific conversations

We're thrilled to see our college come together to celebrate interdisciplinary research!
