

Discussion prompts

- Walk us through your process of using Kualu. Tell us about your experiences navigating it and working in the system
- Did you experience technology issues when logging into Kualu? Briefly explain navigation issues you encountered
- What has Kualu IRB has done for you in preparing for and submitting an application?
- Did you use the Protocol User Guide and were they helpful?
- Do you have suggestions on improving how the protocol application "flows" when completing each section?
- As a campus, we are moving forward with the latest in technology to prepare and submit research projects to effectively and efficiently manage applications for review and approval. What from the previous version of IRB submissions (paper sent via email) would you like to see used in Kualu Protocols?
- Do you have any specific information or requests related to your use of the Kualu that you'd like to share? Your comments will be very useful to us to help our plan module improvements in the future?
