

Alumni Panel

Investment Management

Monday, November 21
4:30-7:00 p.m.

Public Policy Building 105 (Lecture Hall 9)

How do you get on the path to a career in investment management? What do investment analysts actually do? How does financial market volatility and uncertainty affect investors and investment analysts? Answers to these and other questions will be provided at a panel discussion with distinguished UMBC alumni. Professor Douglas Lamdin, Economics, will moderate the discussion. Q&A and informal networking will follow the discussion.
