

The NIH Office of Research on Women's Health (ORWH) invites you to participate in a Facebook Live Q&A discussion about leadership among women in STEM fields

Wednesday, August 5, 2020, 2:00 p.m.–3:00 p.m. EDT

HOST:
Janine Austin Clayton, M.D.
Director, NIH Office of Research on Women's Health (ORWH)

MODERATOR:
Xenia Tigno, Ph.D.
Associate Director for Careers, ORWH

FEATURING:

Kizzmekia Corbett, Ph.D.
Senior Research Fellow, NIH Vaccine Research Center
Scientific Lead, Coronavirus Vaccines & Immunopathogenesis (coVip) Team, National Institute of Allergy and Infectious Diseases (NIAID)

Rosemarie Ramos, Ph.D., M.P.H.
Biostatistician for the Defense Health Agency

Kandice Tanner, Ph.D.
Senior Investigator, Center for Cancer Research, National Cancer Institute (NCI)

In line with one of ORWH's core missions—to develop and support opportunities to recruit, retain, and advance women in biomedical careers—this Facebook Live event will focus on the topic of leadership among women in STEM fields. The panelists will discuss:

- Their research and career paths
- The role of institutions and mentors in helping to ensure women are provided the tools and support needed to excel in leadership roles
- How increasing the number of women, especially women of color, in these roles can help address health disparities and improve quality of care and health outcomes for all

Participants are encouraged to submit questions in these areas during the event and ask for advice on entering and advancing in biomedical and other STEM careers.

ORWH's Facebook Live series features women in science who are making significant contributions to their fields and who inspire women and girls to pursue careers in STEM.

Register for this discussion via [Facebook](#) (by clicking "Interested") or on [Zoom](#).

Closed-captioning will be available.
