

Investigate the intersections of science, technology, and society

With a Human Context of Science & Technology certificate you can...

Understand how science & technology shape and are shaped by human values and societies.

Demonstrate your knowledge and abilities in the ethical dimensions of science & technology to potential employers.

Reflect on how your daily life is affected by emerging technologies and advances in science.

Easily integrate an HCST certificate into your academic pathway:

Choose from dozens of interdisciplinary electives

Design your degree plan with streamlined certificate requirements

For questions or more information about how to design your pathway to an HCST certificate, contact Blake Francis at bfrancis@umbc.edu
