

# HPV VACCINE CLINIC AND STI SCREENING

WEDNESDAY MARCH 25, 6PM - 8PM  
UHS (GROUND FLOOR ERICKSON)

**Human Papilloma Virus (HPV)** is the **#1** sexually transmitted infection in the US. It can cause genital warts and cancers of the genitals, anus, and throat. CDC recommends this vaccine to everyone between the ages of 9 and 26.

It is a series of 3 shots over 6 months

## STI SCREENING

The most common symptom of a sexually transmitted infection is no symptoms at all. The CDC recommends annual, routine screenings for most people. Screenings should be done more frequently if there are symptoms.

Attendees will be entered in to a raffle for a **FREE** 60 minute massage at UHS!

Call Cheryl at 410-455-8091 to reserve your space and check to see if your insurance is accepted

Walk-ins welcome

For more information, scan the barcode or call UHS at (410) 455-2542!
