

Department of Visual Arts
Visiting Artists and Designers Series presents:

Invisibilities:

Work of Multi-Disciplinary Artist

Laura Heit

Heit presents her work spanning two decades, which includes animated short films, miniature puppets shows, and immersive multimedia installation work. Her work combines a handmade aesthetic and commitment to craft with projection and digital technologies to expand on and broaden the notions and definitions of animation. Her boundary-crossing work visualizes the unseen and speculative around ideas of science, everyday life (and death), and climate change.

Date: **Friday, November 13th @ 7PM**
