

IMPACT: TECH RESEARCH & GRADUATE PROGRAM WORKSHOPS

ROBOTS, NOW AND SOON

Facilitated by Dr. Cynthia Matuszek

Assistant Professor of Computer Science and Electrical Engineering

In this research workshop, we will discuss modern robotics and AI, both in the world now and in the future currently being built in research labs.

After an example-heavy talk, we will lead a group-wide discussion on the role of robotics and AI research in improving society and people's lives.

**** All are welcome—women in COEIT are highly encouraged to attend!**

Date: March 15, 2019

Location: ITE 456

Time: 12pm to 12:50pm

+ Lunch will be served.

+ Google swag bags for the first 20 students to arrive!
