

illumina[®] LUNCH & LEARN

**Hosted by The BAS Lab
UMCES - IMET**

The Nextseq 2000 - Now in your Core Expanding Applications and Reducing Run Costs

**Thursday, January 23, 2025 at 12:00 PM
Multipurpose Room**

Speaker: Bao Ho, PhD., Illumina Sequencing Specialist

The new instrument in the core offers up to 1.8B reads or 540Gb of data per run, greatly expanding the core NGS capabilities. During this seminar, we'll discuss new applications with a focus on:

Single Cell Sequencing
RNA Sequencing
Shotgun Metagenomics

**ALL ATTENDEES WILL RECEIVE A 20% DISCOUNT
ON THEIR FIRST NEXTSEQ PROJECT THROUGH THE CORE
(VALID THROUGH MARCH 23, 2025)**

**Lunch will be served for those who pre-register.
To reserve a lunch, please email your local Illumina Account Manager
Rachel Troppman - rtroppman@illumina.com**
