

# AI-ENABLED ENERGY SYSTEMS

## TECHNOLOGIES, INTELLIGENCE, AND SECURITY

Explore **emerging applications of AI** across scientific discovery, energy and materials technologies, and infrastructure resilience.

Hear from researchers across academia, industry, and government and take part in an **AI + Energy workshop** examining research priorities and opportunities for collaboration.

### SPEAKERS

**Jessica Granderson**  
Lawrence Berkeley  
National Laboratory

**Stefano Sanvito**  
Trinity College Dublin

**Jasmine Brewer**  
Quantinuum
