

Do you ever wonder **why the United States is the world leader in COVID deaths?**

Do you know why most countries consistently **under-prepare for the hurricanes, wildfires and earthquakes** that regularly wreak havoc on their populations?

Do you understand how **disasters change the face of domestic and international conflict?**

In an era when **climate change promises more destructive storms, deadly heat waves, catastrophic flooding and widespread disease**, these questions are more pressing than ever.

Take Disaster Politics (POLI 468) this winter with Dr. Grodsky and discover answers.
