

COMPLIANCE WEEK 2018

- ✓ Are you a doctoral or master's student who needs to complete a dissertation or thesis?
- ✓ Do you have any kind of scholarship, fellowship, assistantship, or job that has funding from any division of the National Science Foundation or any branch of the National Institutes of Health?
- ✓ Are you involved in any kind of graduate-level research that involves humans or animals as part of a class project, research project, or other activity at UMBC?
- ✓ Have you completed CITI certification, but your certification is subject to expiration? They must be renewed every 3 years.

If you have answered "Yes" to one or more of these questions, then you need to complete the research compliance training.

The Graduate School requires that ALL graduate students who will conduct research complete the RCR certification.

The Office of Research Protections and Compliance (ORPC) and The Graduate School at UMBC are hosting "Compliance Week," to help you with your certifications! You may attend more than one day.

Guided Workshop

"An Overview of the RCR Process, Why it is Needed, and What You Need to do to be Compliant"

Weds. Oct. 17, 2018 • 12 PM (noon) - 1 PM • COMM 329
