

Planning for Performance Management: A Guide for Supervisors

Workshop for Supervisors

Do you know that...

A critical factor in employees' satisfaction and motivation is the ongoing communication they have with their immediate supervisor?

A Gallup poll indicated that a significant number of employees don't know what is expected of them at work?

Work groups whose members are positively engaged have higher levels of productivity, attendance, retention and customer service?

What past participants have said about this program...

"I now see the PMP as an ongoing performance conversation to be discussed with my employees year round."

"Taking this class has enabled me to communicate better and make the performance review more meaningful for my employees."
