

Discovering the Leader Within

Leadership Workshop for Faculty and Staff

“A leader is one who knows the way, goes the way, and shows the way.”
~ John C. Maxwell

Would you like to develop leadership practices and commitments to increase your effectiveness as a leader?

What a past participant said about this program...

“This was an awesome session and I truly look forward to being together again. Very engaging and thought provoking. I really got a lot out of this and felt that the fluid form of the session allowed for maximum understanding and benefit.”

Effective leadership is any organization’s most critical competitive advantage. Fundamental to creating and sustaining a healthy and vibrant organization, having effective leaders will drive an organization’s achievement of results.

Knowing “how” to be effective and “being effective” are sometimes two very different things. As Steven Covey says; “To know and not to do, is like not knowing at all.”

In this session, you will gain an understanding of the Leadership Styles Continuum, learning which style is your preference and how to develop action items to enhance your personal leadership development.
