

UNDERGRADUATE RESEARCH EXPERIENCE IN NETWORKED CYBER-PHYSICAL SYSTEMS

WICHITA STATE
UNIVERSITY
COLLEGE OF ENGINEERING

APPLICATIONS

DUE MARCH 14, 2018

WWW.WICHITA.EDU/NETCPSREU

Are you an **undergraduate student** majoring in computer engineering, electrical engineering, computer/software engineering, telecommunications engineering, computer science, or other related discipline?

Spend your summer with us at **Wichita State University**, working on National Science Foundation-funded research on networked cyber-physical systems. You will spend nine weeks — **May 27-July 27, 2018** — living on the Wichita State campus and working on research with faculty mentors.

We pay travel, lodging and food expenses (**\$1080**), as well as a **\$4,500 stipend** to successful applicants.

Available Research Areas

- *Robotics and Artificial Intelligence*
- *Indoor Mapping and Navigation using Smartphones*
- *Bluetooth-based Wireless Localization*
- *Cloud Computing*
- *Computer Vision*
- *Security and Privacy of Wearable Devices*
- *Secure Manufacturing Systems*
