

Sexual Assault Awareness Month Clothesline Project

Students, Faculty, and Staff have made t-shirts describing their experience with sexual assault and relationship violence. On Tuesday, April 16th, these t-shirts will be hung shoulder-to-shoulder on a clothesline for public viewing, as if the survivors are there themselves, telling us their stories.

The Clothesline Project gives voice to the experiences of survivors, victims, family, and friends who have been affected by violence. All are encouraged to attend and participate.
