NAVIGATING THE CAREER FAIR

Do your research. Learn who is participating in the career fair and create a list of organizations that interest you. Then research their products/services and employment needs.

Be prepared. You should have several copies of your resume handy and have easy access to them. Having an attractive pen and portfolio isn’t a bad idea either.

Dress to impress. Show employers you are serious; dress professionally.

Use your 30-second commercial. Take initiative and start the conversations with employers you want to learn more about. See the section below on how to craft your 30-second commercial.

Network. Don’t limit your interactions to just recruiters. Talk to fellow job-seekers at the event about different employers, possible job openings and more.

Follow-up. Make sure to follow-up with anyone you talked to at the fair through email within 24 hours. Asking for business cards makes this a lot easier. After the fair, you should also consider connecting with recruiters through LinkedIn.

CRAFTING YOUR 30-SECOND COMMERCIAL

When meeting new individuals in a professional setting, like networking events and career fairs, it is important to make a strong first impression. Through your 30-second commercial you will be able to quickly and effectively market yourself to others.

YOUR 30-SECOND COMMERCIAL SHOULD:

- Identify who you are
- Highlight a few strengths and accomplishments
- Show how you can bring added value to an organization
- Be concise

As you can see in the sample below, the student highlights his name, major/industry, strengths, and specific interest in the company. Remember, the 30-second commercial can also be useful when writing resumes/cover letters, writing emails to employers, or when leaving voicemails. Also, don’t forget to PRACTICE. Practicing will help you deliver your 30-second commercial seamlessly with confidence. However, you don’t want to sound like a robot!

Hello, my name is Barry Business and I am a UMBC student studying Financial Economics with an accounting certificate. I am in my junior year and I am very interested in an accounting internship with your firm. Currently, I am serving as the treasurer for the UMBC accounting club where I have been effective in managing our budget for events, activities and out-reach programs. I believe my enthusiasm for helping others increase their financial literacy mirrors your firm’s dedication to helping others navigate their tough financial situations.

TEAM ABERDEEN PROVING GROUND

HOME OF INNOVATION AND OPPORTUNITY
Aberdeen Proving Ground (APG) is the State of Maryland’s sixth largest employer, and Harford County’s largest employer with more than 21,000 civilian, military, and contractor employees. Workers at APG are responsible for numerous technical achievements in military intelligence, medical research, engineering, computer technology, cyber capability development and many business practices.

START AN EXCITING CAREER AS A FEDERAL CIVILIAN EMPLOYEE AT APG!
Come talk to a representative from one of the following APG organizations here at the career fair to learn more about the opportunities available:

The U.S. Army Test and Evaluation Command (ATEC) plans, conducts, and integrates developmental testing, operational testing, independent evaluations, system assessments, and experiments to provide essential information to decision makers. Two major sub-organizations, the U.S. Army Evaluation Center (AEC) and the Aberdeen Test Center (ATC) also reside on APG and support ATEC in its mission.

The U.S. Army Contracting Command (ACC) delivers Army readiness by contracting for equipment and services vital to the Army’s global mission. As the Army’s principal buying agent, ACC offers the contracting expertise, ready to support the warfighter while ensuring responsible stewardship of taxpayer’s funds.

The U.S. Army Communications-Electronics Command (CECOM) collaborates with other Army organizations and industry partners to provide, integrate and sustain world-class command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR) hardware, software and mission command capabilities for the joint warfighter.

The Joint Program Executive Office – Chemical Biological Defense (JPEO-CBD) manages the acquisition and fielding of chemical, biological, radiological, and nuclear defense equipment; and medical countermeasures. Five unique Joint Program Management Offices across the U.S. support the National Security Strategy and our Armed Forces.

The U.S. Army Research, Development & Engineering Command (RDECOM) discovers, develops and integrates the technologies that modernize the Army and provide the capabilities that make Soldiers safer and more effective. Three major sub-organizations, the Army Research Lab (ARL), the Communications-Electronics Research, Development and Engineering Center (CERDEC), and the Edgewood Chemical Biological Center (ECBC) also reside on APG and support RDECOM in its mission.

trellis

Begin a New Career Working with Kids!

We are currently looking for passionate individuals to join our clinical team. **No formal training required.** Just bring a passion for working with kids and an interest in learning about behavior management.

Trellis specializes in serving individuals from 18 months to 21 years old with autism and other developmental needs. Here you will learn more, do more, and provide support for individuals and families in our community.

- Work one-on-one with kids with special needs
- Receive excellent on-the-job training to provide behavior therapy – to create lasting change for our kids and their families
- Full and part-time positions available, flexible schedules
- Great career advancement opportunities

**Learn more and apply today!**

It’s not only **WHAT** you do, 
It’s **WHY** you do it.

What’s your expertise? 
Is it a STEM field or business? Foreign language or intelligence analysis? Security or counterintelligence?

Whatever your field, NSA has a position that mixes your expertise with our mission: 
The safety and security of our families, our communities and our country.

Apply today
