UMBC 2026 Fall Career & Internship Fair – Student Reminder

We are excited to bring this event to you and appreciate your participation. **Please read the following information carefully before attending.**

This event space is reserved by the Career Center to support recruitment efforts. Students engaged in behaviors deemed disruptive by event organizers or University staff will be asked to leave and are subject to the Student Code of Conduct and the **University's Time, Place, and Manner Policy**.

As a helpful guide, please **scan this QR code** to review information related to activity disruption **prior to the event**.

Thank you for helping maintain a professional and respectful environment for all attendees. We look forward to a great event.

NAVIGATING THE CAREER FAIR

Do your research. Learn who is participating in the career fair and create a list of organizations that interest you. Then research their products/services and employment needs.

Be prepared. You should have several copies of your resume handy and have easy access to them. Having an attractive pen and portfolio isn't a bad idea either.

Dress to impress. Show employers you are serious; dress professionally.

Use your 30-second commercial. Take initiative and start the conversations with employers you want to learn more about. See the section below on how to craft your 30-second commercial.

Network. Don't limit your interactions to just recruiters.Talk to fellow job-seekers at the event about different employers, possible job openings and more.

Follow-up. Make sure to follow-up with anyone you talked to at the fair through email within 24 hours. Asking for business cards makes this a lot easier. After the fair, you should also consider connecting with recruiters through LinkedIn.

CRAFTING YOUR 30-SECOND COMMERCIAL

When meeting new individuals in a professional setting, like networking events and career fairs, it is important to make a strong first impression. Through your 30-second commercial you will be able to quickly and effectively market yourself to others.

YOUR 30-SECOND COMMERCIAL SHOULD:

- Identify who you are
- Share your major/industry as it relates to the employer/jobs they are recruiting for
- Highlight a few strengths and accomplishments
- Show how you can bring added value to an organization
- Be concise

As you can see in the sample below, the student highlights their name, major/industry, strengths, and specific interest in the company. Remember, the 30-second commercial can also be useful when writing resumes/cover letters, writing emails to employers, or when leaving voicemails. Also, don't forget to PRACTICE. Practicing will help you deliver your 30-second commercial seamlessly with confidence. However, you don't want to sound like a robot!

Hello, my name is Sofia Suarez, and I am studying Financial Economics with an accounting certificate. I am in my junior year, and very interested in an accounting internship with your organization. Currently, I am serving as the treasurer for the UMBC accounting club where I have been effective in managing our budget for events, activities and out-reach programs. I believe my enthusiasm for helping others increase their financial literacy mirrors your organization's dedication to helping others navigate their tough financial situations.
